

**VIRGINIA GAY HOSPITAL**  
Clinics, Home Health, Nursing & Rehab

## Dr. Lariviere, M.D. FACS – Why do you like working at Virginia Gay Hospital?

One of the most enjoyable things about working at Virginia Gay is that pretty much everybody here is truly interested in the community and the health of the people in the community. They put that above bureaucratic nonsense and they put that above their own personal interests, many times. If we need to do something and gather a team for a patient's benefit we can always count on everybody throwing in and helping us out.

A Healing *tradition*
